Public Managers with a University of La Verne Background

Colton City Manager **Rod Foster** suggested that we take a look at those who have graduated from the

University of La Verne and develop a newsletter list featuring them. So we have taken that look and find a number of names that need to be included in a list of local government managers with a University of La Verne background. We know there must be more than we have found, but here is the list that we developed. We hope you enjoy it.

www.brandywinedev.com

Founded in 1891 by the Church of the Brethren, the University of La Verne has taken the challenge to provide students with individual attention to promote personal growth through quality education. The University opened a campus in Orange County in 1981, and today maintains campuses throughout Southern California, including on some military bases. The main Campus is located east of the 57 Freeway and south of the 210 Freeway in the City of La Verne where **Bob Russi** is the City Manager, and from where long-time highly-respected City Manager **Martin Lomeli** retired in 2010 after a run of some 23-years as City Manager.

"Students are my primary responsibility and my focus."
